“ *I would also like to join my fellow ASTM members in giving my deepest condolences to the Williams family.*

Craig visited Ohio numerous times and assisted me in so many different ways with his quiet demeanor persuading Cuyahoga and Lake County to accept our specifications.

He will be sorely missed but never forgotten.

“ Abby,
You, your family and everyone that knew Craig have lost a great person and friend. I believe I have known Craig for over 40 years through business, the NPCA and ASTM. Craig was a down to earth person who truly was interested in the people he knew and treated everyone with respect and dignity.
Before every ASTM meeting Craig would call me to find out what night we could go out to dinner and every year we would fight over who was paying the bill; I think he paid more times than I did as he resorted to giving his credit card to the waiter immediately so I couldn't get the check. I think he learned that trick from my father. I could go on with stories for quite a while but I won't. I'm sure he is with the Lord and will keep smiling down on you.

*Love and Blessings

“ So very saddened to hear about Craig’s passing. We had a great friendship that started when I went to work for an Indianapolis precaster, and continued as NPCA engineer. Craig was always so helpful & informative at ASTM or any industry event. Always with a smile and kind word. Love hearing his Joe Norman Contracting stories from long ago. You’ve lost a great person, as did our industry. He’s with our Savior now.

“ Abby, very sorry to learn about Craig, one of my favorite people at NPCA and ASTM. Craig was always willing to get involved and help for the greater cause. A very unassuming and positive role model to many, he will be greatly missed.

Please know you and your family are in our thoughts and prayers.
