“ *"Tommy"!! I would call him as I walk into the examination room to listen to his story and perform a physical examination. He was my patient for so many years.
We will talk about baseball and football in each season and then we will talk about his medical condition.
Then as we conclude our conversation, he will say "come on boy", I like those shoes you are wearing, they look good on you"
In our usual happy bubbly visit, we will say good bye, see you in 2-3 months.*

Hey Tommy, you were my friend and my patient. It was an honor and privilege to attend to you over the years
